

# RAIN GARDENS

Green Solutions for Stormwater Management

## FREE WORKSHOP

## The Rumson Environmental Commission & The American Littoral Society

Proudly Present

# RAIN GARDENS : CAN YOU DIG IT?

## Learn to Build Your Own Rain Garden

Rain gardens are a beautiful and practical way to help capture and clean stormwater runoff before it reaches our waterways. Learn how to install and maintain your own rain garden including site selection, depth & sizing, soil testing, plant choices and more.

Wednesday, December 1st  
6:00pm - 8:00pm  
Bingham Hall  
40 Bingham Avenue Rumson

Panelists from Rumson Borough, Rumson Environmental Commission, American Littoral Society and Rutgers Cooperative Extension Water Resources Program will be available to answer questions.
